Muon meeting
05.23.2001

––––––––––––––––––––––––––––––––––

Event Display
status

Requests from Muon group: done

● *Using of new geometry, new muon code(mainly to fix CMP bugs):*

➡ *CMP hits*
➡ *CMU hits*
➡ *CMX hits*
➡ *CMP/CMU/CMX stubs*

● *Optional depiction of the CMX detector*
COT window:
mouse right–click –> SetDisplayCmxDetector

if SetDisplayCmxDetector=0 =>
SetDisplayCmxHits=0
SetDisplayMuStubs=0

● *The default scale at which the COT display is shown is changed so that the entire CMP detector fits inside the window:*
the scale is adjustable – it is saved in the .evdrc

Muon related plans depend on the priority of the other tasks

Any questions/concerns/help are welcome
